

FRANCE MONTGOLFIERES SARL

What to expect

France Montgolfières offers you an unforgettable experience, respecting your comfort and safety.. Our flights can be enjoyed by everyone, individuals or groups. There are no particular age or physical requirements.

Balloon flights take place at sunrise or sunset when the winds are calm and the air is cool and stable.

First you will discover the balloon preparation and inflation, and once aboard, you are ready to float where the wind takes you for approximately one hour.

After a gentle take off, let the wind carry you, and maybe pick a leaf in a passing tree, or climb so you can touch the clouds, without the slightest feeling of vertigo!

The spectacle that unfurls before you will remain engraved in your memory for ever. During the flight the pilot is in permanent contact with the ground crew.

The ground crew will be there to greet you at the landing for the traditional "toast des aéronautes" a convivial celebration, before escorting you back to the departure point
